## CAREER OBJECTIVE

Passionate about contributing to a dynamic team environment that encourages curiosity and exploration of emerging technologies. I aim to leverage my technical skills and enthusiasm to tackle complex problems and drive innovation within the organization.

## EMPLOYMENT HISTORY

- I am currently employed as a **Frontend Developer at Docxster**, a Subsidiary of Tech Progenie, located in Bangalore, Karnataka, since **May 2023 to Present**.

**Total Experience - 1 Year**

- I worked as a Software Engineer at IFS India Mercantile Private Limited in Pune from **February 2020 to April 2023**

**Total Experience - 3 Years 2 Months**

## PROJECTS

### 1. DOCXSTER

Docxster is a SaaS product that aims to document digitalization using new-gen AI. Docxster helps firms to digitize, organize, and manage documents like invoices, bills of lading, and purchase orders without the hassle of manual processing. This process will save the time and resources of firms.
